Profile

I have maintained a high honor status throughout my degree program. Peculiar strengths in Programming languages like JavaScript and Java, and experience working with SQL and databases, also a huge interest in learning others along the way (currently learning Python). I am fully capable of working in a team, as well as alone. At the moment, I am developing a mobile applications using Augmented Reality as my Capstone Project. I also have a business as a Freelance Web Developer. For more information on my past and current projects, please visit my online portfolio.
